Frontend: React 18/19, Next.js 14, Vite, Tailwind CSS, Monaco Editor, Leaflet
Backend & Databases: Node.js, Express.js, FastAPI, REST APIs, MongoDB, Prisma ORM
AI / ML & Systems: TensorFlow/Keras, OpenCV, CNNs, MobileNetV2, Google Gemini API, Babel AST
Tools & Cloud: Git, GitHub, Vercel, Render, VS Code, Vitest

FEATURED PROJECTS (6 VERIFIED SYSTEMS)

1. MentorNearby - EdTech Marketplace (Live: mentornearby.com)
- Connecting students & verified tutors with location matching, JWT auth, Razorpay & Cloudinary.

2. CodeTrace - AI Developer Education & AST Tracing (Live: codetrace-nu.vercel.app)
- Deterministic execution visualizer using Babel AST instrumentation & live memory layout in Monaco.

3. CampusPrep (ProfessorVirus) - Academic & Placement Suite (Live: professorvirus.site)
- AKTU university study companion featuring notes, PYQs, AI bot Ask Virus, and Interview Pro.

4. ScamShield AI - Multimodal Fraud Analysis (Live: scamshield-ai-steel-gamma.vercel.app)
- Multimodal fraud risk detection for pitches & screenshots using Gemini API, OCR & deterministic rules.

5. CropDetect AI - Plant Leaf CNN Classifier (Live: cropdetect-ai.vercel.app)
- Deep CNN (MobileNetV2) trained on 54k+ PlantVillage images achieving 95.5% benchmark accuracy.

6. Supply-Chainer - Operations Research & Risk Engine (Live: supply-chainer-snowy.vercel.app)
- Quantile delay forecasting (p10/p50/p90), Monte-Carlo bottleneck simulation & DAG route optimization.

EXPERIENCE & INTERNSHIPS

MentorNearby | Founder & Lead Developer (2024 - Present)
- Architected full marketplace platform with role-based auth, dynamic search, and payment flows.

Codveda Technologies | Web Development Intern
- Developed responsive web interfaces and modular components adhering to production standards.

IBM SkillsBuild x AICTE (BharatCares) | Gen AI & Cloud Intern
- Hands-on 6-week intensive training on generative AI, prompt engineering, and cloud deployment.
