Professional Summary

Computer Science and Engineering undergraduate with hands-on experience in full-stack development, Generative AI, cloud computing, and computer vision. Skilled in developing web applications, REST APIs, backend systems, database integrations, and AI-powered solutions. Strong foundation in DSA, OOP, DBMS, and Operating Systems, with 500+ DSA problems solved across LeetCode and CodeChef.

Education

B.Tech in Computer Science & Engineering (AKTU) **2024 – 2028**
ABES Engineering College *CGPA – 6.5*

Class XII (CBSE/State Board) **2022**
Tagore Shiksha Sadan Inter College *80%*

Class X (CBSE/State Board) **2020**
Tagore Shiksha Sadan Inter College *75%*

Technical Skills

Programming: C, C++, Python, Java, JavaScript
Web: HTML, CSS, JavaScript, Tailwind CSS, Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code
Cloud & AI: AWS Fundamentals, Generative AI, Prompt Engineering
Core: DSA, OOP, DBMS, Operating Systems, REST APIs

Professional Experience

IBM SkillsBuild × AICTE **June 2026 – July 2026**
Gen AI & Cloud Computing Intern

- Refined 15+ prompt-driven workflows for GenAI applications, improving response accuracy by 30% through iterative testing.
- Built and deployed 3 cloud-based AI applications using AWS (EC2, S3, Lambda), reducing manual deployment time by 40%.
- Designed modular API architecture supporting 5+ integration points for scalable AI-powered workflows.
- Shipped an end-to-end GenAI application combining prompt engineering with AWS cloud services, cutting response latency by 25%.

Codveda Technologies **June 2026 – July 2026**
Web Development Intern

- Built 10+ responsive web interfaces using HTML, CSS, and JavaScript, improving page load speed by 20%.
- Engineered 8+ reusable frontend components, cutting development time by 30% across web interfaces.
- Optimized layouts for consistent usability across desktop and mobile, reducing UI-related bug reports by 25%.

Projects

MentorNearby.com – Startup Project | GitHub

- Built a full-stack mentor discovery platform (HTML, CSS, JS, Node.js, Express.js, MongoDB) serving 100+ test users.
- Implemented secure JWT-based authentication and mentor-search workflows, reducing profile-search time by 40%.
- Designed a modular REST backend with 10+ API endpoints and MongoDB integration, enabling scalable feature expansion.

CampusPrep – AI-Powered Study & Placement Platform | GitHub

- Built a full-stack platform (React, Node.js, MongoDB) with notes, PYQs, quizzes, and an AI study assistant using the OpenAI API.
- Developed Interview Pro: aptitude rounds, coding challenge, AI technical and HR interviews, and a performance report.
- Secured the backend with JWT, bcrypt, CORS, and rate limiting; deployed on Vercel and Render.

CropDetect AI – Crop Disease Detection using CNN | GitHub

- Built a MobileNetV2 CNN on PlantVillage (54,000+ images, 38 classes), achieving 95.5% accuracy and 95.2% F1-score.
- Developed a FastAPI backend with an OpenCV-based validator to reject non-plant images and return confidence-ranked predictions.
- Delivered a React + TypeScript web app and a Streamlit app for cloud deployment.

Achievements

- Solved 250+ DSA problems each on LeetCode and CodeChef (500+ total), ranking in the top 20% of active users.
- Selected out of 500+ applicants for the IBM SkillsBuild × AICTE Gen AI & Cloud Computing Internship.
- Selected out of 100+ applicants for the Codveda Technologies Web Development Internship based on technical assessment performance.
- Built and deployed 3+ AI and full-stack projects across web, cloud, and computer vision domains.

Certifications & Programs

EY Technology Risk Virtual Job Simulation – Forage **Oct 2024 – Nov 2024**
Microsoft Season of AI **Jan 2026 – Feb 2026**
Design-A-Thon – Manipal University Jaipur & Unstop **Jan 2025 – Feb 2025**
Synapse 2K25 – NIT Calicut **Apr 2025 – May 2025**

Extracurricular

Internshala Campus Ambassador **2026 – Present**
Microsoft PowerBI Club – Volunteer **2025 – Present**
